Professional Summary :

Highly skilled Backend Developer with over 3+ years of experience in designing and developing robust web and mobile applications using PHP, Laravel, and MySQL. Proficient in AWS cloud services, RESTful API integration, and payment gateway implementation. Strong knowledge of building efficient and scalable database architectures to support complex application. Adept at building scalable, secure, and efficient systems following MVC architecture and OOP principles. Strong problem-solving skills, a quick learner, and a collaborative team player committed to delivering high-quality solutions.

Professional Experience :

Jr. Software Developer (Full-Stack Developer)

Kriscent Techno Hub Pvt. Ltd , Kota(Rajasthan) November 2025 – **Present**

- Architected and deployed scalable backend systems using PHP and Laravel, integrating RESTful APIs for seamless communication across web and mobile platforms.
- Leveraged **AWS services** (EC2, ECS, Elastic Beanstalk, S3, RDS, SNS,SES) to enhance application hosting, storage, database management.
- Integrated **multiple third-party APIs** including **Razorpay** ,**PhonePe, AsiaPay** (payment gateway), **Zoom** (live classes), **MSG91** , **Twilio, Firebase SMS** (OTP authentication), **WhatsApp Business API** (automated notifications), and Vimeo (secure video streaming and course content delivery).
- Optimized complex database queries and API performance, resulting in faster response times and a seamless user experience across web and mobile platforms.

Previous Company :

Encanto technologies LLP(Jr. Software Developer), Indore(Oct-2024 to Oct-2025)

IGNIS IT Solutions Pvt. Ltd(Jr. Software Developer), Indore(Jan-2023 to Sept-2024)

Education :

Bachelor of Computer Applications (BCA) 65.5%
Shri Chitragupt Institute of Computer & Management, Jaora May 2014 – May 2017

Technical Skills :

- **Languages**: PHP, C, C++, HTML, CSS, JavaScript, Ajax.
- **Frameworks & Libraries**: Laravel, Bootstrap, jQuery.
- **Databases**: MySQL.

- **Tools & Platforms**: AWS (EC2, ECS, Elastic Beanstalk, S3, RDS, SNS), Git, GitHub, GitLab,Laragon, Firebase, Postman, VS Code, Sublime Text, Notepad++, DBeaver.

Certifications :

- Python and Django, Universal Informatics, Indore, December 2022.
- C and C++, Universal Informatics, Indore, August 2022.

Key Projects :

1. Medisaver – Healthcare & Online Medicine Platform

Project Link: medisaver.in
Role: Full-Stack Developer

- Developed and maintained a medicine e-commerce platform using **PHP Laravel, MySQL, HTML, CSS, JavaScript, jQuery, and Bootstrap**.
- Built responsive and user-friendly interfaces for medicine browsing, product search, filtering, and online ordering.
- Implemented **membership plans, discount offers, and cashback modules** to improve customer retention and engagement.
- Developed backend modules for brands management, order processing, user management, Cashback Management and subscription management.
- Integrated **third-party APIs** for payment gateway, medicine/brand services, order processing, and other healthcare business requirements.
- Designed and developed **RESTful APIs** for seamless communication between frontend and backend systems.
- Optimized database queries and application performance to ensure scalability and reliability.
- Integrated **msg91 OTP-based authentication** for secure signup and login using mobile numbers.
- Participated in requirement analysis, development, testing, deployment, and maintenance activities.

2. TSBOS – Learning Management System (LMS)

Project Link: https://thesomnathbhattacharyaa.in/
Role: Full-Stack Developer

- Developed and maintained a comprehensive Learning Management System (LMS) using **PHP Laravel, MySQL, HTML, CSS, JavaScript, jQuery, and Bootstrap**.
- Implemented modules for **course management, student enrollment, assignments, quizzes, assessments, and progress tracking**.
- Developed and integrated **Live Class functionality** for real-time online learning and virtual classroom sessions.
- Created secure authentication and role-based access control for **Admin, Instructors, and Students**.
- Integrated **third-party APIs** for live classes, payment gateway, notifications, and communication services.
- Built responsive dashboards for students, teachers, and administrators with performance and attendance tracking.
- Developed RESTful APIs for seamless frontend-backend communication.
- Optimized database performance and application scalability to ensure a smooth learning experience.

- Collaborated with stakeholders to implement new features, enhancements, and bug fixes.
- Integrated **WhatsApp Business API** to automatically send course purchase confirmations, order details, enrollment information, and notifications to students.

3. Ferranza EV – Electric Vehicle (EV) Buying Platform

Project Link: https://ferranzaev.in/
Role: Full-Stack Developer

- Developed and maintained an Electric Vehicle (EV) buying platform using **PHP Laravel, MySQL, HTML, CSS, JavaScript, jQuery, and Bootstrap**.
- Designed and implemented responsive user interfaces for EV product listing, vehicle comparison, inquiry management, and customer engagement.
- Developed backend modules for **vehicle management, brand management, lead generation, user management,** and **order processing**.
- Implemented advanced search and filtering features to help users discover EVs based on specifications, price range, and vehicle categories.
- Integrated **third-party APIs** for payment processing, notifications, and external business services.
- Designed and developed **RESTful APIs** for seamless frontend and backend communication.
- Built admin dashboards for managing vehicles, customer inquiries, leads, and website content.
- Optimized database performance and application scalability to ensure smooth user experience and fast response times.
- Implemented secure authentication, authorization, and role-based access control mechanisms.
- Participated in requirement gathering, development, testing, deployment, and ongoing maintenance activities.

4. Sna Mart - Buy, Sell and Rent Product Platform

Project Link: https://play.google.com/store/apps/details?id=com.app.martsna&pcampaignid=web_share

Role: Backend Developer
Technologies: PHP, Laravel, MySQL, AWS S3 Bucket, RDS, RESTful APIs.

- Developed secure user login/signup functionality with OTP verification using **MSG91 SMS Gateway**.
- Integrated **AWS S3 Bucket** for storing and managing product images and user-uploaded documents securely.
- Implemented **location-based product filtering** to fetch and display nearby products using the user's current GPS location.
- Built RESTful APIs for mobile app communication, with role-based access control for users, and admin.
- Optimized backend queries and response handling, enhancing API performance and user experience.
- Integrated **Firebase Cloud Messaging (FCM)** for real-time **push notifications**, alerting users about product updates, offers, and chat messages.

5. Laiza - Live Social Ecommerce Platform

Project Link: https://play.google.com/store/apps/details?id=com.laizalive.greatminds&pcampaignid=web_share

Role: Backend Developer
Technologies: PHP, Laravel, MySQL, AWS S3 Bucket, RDS, RESTful APIs.

- Designed and developed **Laiza** , an **interactive live commerce platform** connecting **Influencers, Sellers, and Users**.
- **Influencers** – Showcase and sell products via **live streaming**, earning **commissions** on successful sales.
- **Sellers** – List products, manage live product demos, and boost sales through influencer-driven campaigns.
- **Users/Buyers** – Discover products, interact in **real-time with influencers/sellers**, and shop instantly.
- Implemented **real-time video streaming, interactive chat, secure payment integration, and commission tracking**.
- Delivered an **engaging, scalable, and immersive e-commerce experience**.
- Integrated **Twilio OTP-based authentication** for secure signup and login using mobile numbers.

Strengths :

- Adaptable and quick to learn new technologies and programming languages.
- Strong dedication to punctuality, teamwork, and delivering high-quality solutions.
- Excellent problem-solving skills with a focus on optimizing performance and scalability.

Hobbies :

- Playing and watching cricket.
- Cooking.

Languages :

- English.
- Hindi (Native),

Declaration :

I hereby declare that the information provided above is accurate and authentic to the best of my knowledge.
